COMPARISON STUDY

BADGIE VS TEAMWORKS: COMPARISON STUDY

Teamworks and Badgie, axis by axis: what each one publishes, with the source of each data point, and who each tool is for.

Updated on 1 October 2026

METHODOLOGY

Functional comparison based on each company's public information as of 1 October 2026 and on Badgie features in production. "Not published" means the company does not describe it on its pages, not that it does not exist. If something has changed, write to us at hello@badgie.com and we will correct it.

30-SECOND SUMMARY

Teamworks is an athlete management system for high performance: wearable data, tests, nutrition, individual development plans and AI over that data. Badgie is a platform for academies and grassroots clubs: payments from families, reports, badges, squad call-ups and communication. They overlap in planning, AI and apps; they differ in who they serve. Teamworks does not publish a price or an offer for grassroots schools.

	TEAMWORKS	BADGIE
WHO IT IS FOR	Elite sport: professional teams, US college sport, Olympic federations and the military. They do not publish an offer for grassroots academies.	Schools, academies, clubs and federations in any sport, especially youth, in Spain, Europe and Latin America.
PRICE	Not published.	Public monthly price by number of students: Starter 99 € · Pro 249 € · Business 399 € · Network 799 €. Annual billing is 25% cheaper; above 1,000 students, custom pricing.
LANGUAGES	Hub in 9 languages; AMS in 8.	6 languages: Spanish, English, Catalan, Italian, French and Portuguese.

AXIS-BY-AXIS COMPARISON

Each cell shows the status, a short note and its source. For Badgie, the production features that prove it.

AXIS	TEAMWORKS	BADGIE
PLAYER DEVELOPMENT (IDP)	**YES** AMS: individual development plans based on strengths and weaknesses data. Source: teamworks.com · checked 1 Oct 2026	**PARTIAL** Attributes from 1 to 99 with radar and history, player file, multi-season career, level-based pathways, personal bests, belts and ski progression. No individual goals (IDP) with a progress bar per player. Features: FIFA-style attributes · Player file · Multi-season history · Level-based pathway · Drills with personal bests · Belts and grades · Ski and snowboard progression
EVALUATIONS	**PARTIAL** Performance tests, match and session reports, dashboards. They do not publish reports for families. Source: teamworks.com · checked 1 Oct 2026	**YES** Sports reports with custom templates that the family receives, team matrix, scanned paper evaluation, comments written with AI, trial class report and player diary. Features: Sport reports · Evaluation matrix · Evaluate on paper and scan · AI-written comments · Trial session report · Behaviour per session · Training diary
VIDEO	**PARTIAL** Teamworks AI links match clips to metrics; the Hub shares videos. No editor or annotation of their own published. Source: teamworks.com · checked 1 Oct 2026	**YES** Video analysis in the app (drawing, angles and voice note) for any sport, upload from the phone, video courses and an exercise library. Web video analysis for golf only; no integration with Veo or Hudl cameras and no tagging on match video. Features: In-app video analysis · Photo and video uploads · Coach notes with video · Drill library with video · Video courses · Full-screen video analysis · AI swing analysis

Source: teamworks.com · checked 1 Oct 2026	**YES** MCP server to connect Claude, ChatGPT or Cursor, CLI, integrations (Stripe, WhatsApp, TrackMan, Strava, federations…) and club website. No public REST API with keys. Features: MCP server · Badgie CLI · Integrations · Club website

WHERE TEAMWORKS IS STRONGER

- More than 100 integrations with performance data sources, including wearables.
- Individual development plans built on the athlete's data.
- AI applied to medical data, nutrition and high-performance metrics.

WHERE BADGIE IS STRONGER

- Collection of fees from families with Stripe and SEPA, and VeriFactu invoicing.
- Reports, badges and an app designed so that the family sees progression.
- Squad call-ups, match reports and federations for grassroots football.
- Public price based on the number of students.

WHAT BADGIE DOES NOT HAVE TODAY

- No individual goals (IDP) per player with a progress bar.
- No integration with Veo or Hudl cameras and no event tagging on match video.
- No GPS or team wearables such as Catapult or STATSports.
- Web video analysis is for golf only; in the app it works for all sports.

WHO EACH ONE IS FOR

Teamworks: Professional teams, college programmes and federations that manage performance, health and wearable data.

Badgie: Academies, schools and grassroots clubs that manage students, families, payments and sporting progression.
